Late June 2010	Spring School Census		Updated estimates based on Spring School Census pupil locations		

The FFT Data Analysis Project uses national datasets provided by DCSF and the above table of issue is based on a provisional timetable provided by DCSF

Please note :

- Analyses to Support Self Evaluation will be produced for LAs around the same time as a new database is issued
- FFT Online will also be updated around the same time as a database is issued

The issue month is calculated as follows:

- Early - First 2 weeks of the month
- Mid - Middle 2 weeks of the month
- Late - Last 2 weeks of the month

If data is received earlier (or later) than anticipated then the issue of updated databases will be amended accordingly. An email will be sent to project contacts in LAs advising of any alterations to this timetable.

Issued : July 2009
