The cLc Learning Platform is supporting teaching and improving learning outcomes in schools around the world. These Best Practice examples enable teachers to share experiences, ideas and recommendations to support and aid other teachers tackling the same challenges.

School: Earl Soham Primary School	**LA:** Suffolk
Teacher: Mr Mansell	**Students:** School Council / Whole School
Contact: jamesmansell@earlsoham.suffolk.sch.uk	
Learning Focus: To share information about the plans and activities of the School Council.	
Curriculum Focus: School Council / Student Voice	
Tools used: 🍀 Wiki	

How this worked in practice: The School Council have worked alongside a member of staff to create this 🍀 Wiki to share their plans and activities with the other children in school. All children within the school are able to view the 🍀 Wiki in order to keep aware of what their School Council representatives are working for on their behalf. They have created the main 🍀 wiki page with 🔷 WikiLinks to the key aspects of their work – Committee members list , 'missions' and minutes of meetings amongst others. They use a book called 'Teach your Granny to Text' as the starting point for many of their efforts to really make a difference within the school and beyond. The 🍀 Wiki keeps the other children in school up to date with how the School council is working on their behalf and can be easily expanded or developed to include any changes or new 'missions' that the children undertake, and the children have created 🔷 WikiLinks back to the main article from each additional page so that the children can easily navigate around the 🍀 Wiki.

By the end of this sequence of work children had developed skills in:
Literacy: Reporting, Checking spelling, Vocabulary, Layout, writing instructions, Editing.
ICT: Embedding images, cutting and pasting Word processing (Wiki editing).
Learning: Drafting & editing, collaborating, communicating, co-constructing.

Next Steps: The school Council could gather the views of the rest of the children on key issues within their 'plan' using the 📊 survey or 💬 forum tool and could perhaps record 🎥 video footage of some of their events and activities to share with the rest of the school community on a 🏠 homepage.
